

Appendix A References

A-1. Required Publications

EM 1110-2-1603

Hydraulic Design of Spillways

EM 1110-2-1913

Design and Construction of Levees

EM 1110-2-2102

Waterstops and Other Joint Materials

EM 1110-2-2104

Strength Design for Reinforced-Concrete Hydraulic Structures

EM 1110-2-2400

Structural Design of Spillways and Outlet Works

EM 1110-2-2901

Tunnels and Shafts in Rock

Note: Specifications are grouped by issuing agency and then arranged in numerical order by specification designation.

American Association of State Highway & Transportation Officials (AASHTO) 1996

American Association of State Highway & Transportation Officials. 1996. *Standard Specifications for Highway Bridges*, Sixteenth Edition, Washington, DC.

American Association of State Highway & Transportation Officials (AASHTO)

American Association of State Highway & Transportation Officials, *M36/M36M, Standard Specification for Corrugated Steel Pipe, Metallic-Coated, for Sewers and Drains*, Washington, DC.

American Association of State Highway & Transportation Officials (AASHTO)

American Association of State Highway & Transportation Officials, *M170/M170M, Standard Specification for Reinforced Concrete Culvert, Storm Drain, and Sewer Pipe*, Washington, DC.

American Association of State Highway & Transportation Officials (AASHTO)

American Association of State Highway & Transportation Officials, *M190, Standard Specification for Bituminous*

Coated Corrugated Metal Culvert Pipe and Pipe Arches, Washington, DC.

American Association of State Highway & Transportation Officials (AASHTO)

American Association of State Highway & Transportation Officials, *M196/M196M, Standard Specification for Corrugated Aluminum Pipe for Sewers and Drains*, Washington, DC.

American Association of State Highway & Transportation Officials (AASHTO)

American Association of State Highway & Transportation Officials, *M206/M206M, Standard Specification for Reinforced Concrete Arch Culvert Storm Drain and Sewer Pipe*, Washington, DC.

American Association of State Highway & Transportation Officials (AASHTO)

American Association of State Highway & Transportation Officials, *M207/M207M, Standard Specification for Reinforced Concrete Elliptical Culvert, Storm Drain and Sewer Pipe*, Washington, DC.

American Association of State Highway & Transportation Officials (AASHTO)

American Association of State Highway & Transportation Officials, *M218, Standard Specification for Steel Sheet, Zinc-Coated (Galvanized) for Corrugated Steel Pipe*, Washington, DC.

American Association of State Highway & Transportation Officials (AASHTO)

American Association of State Highway & Transportation Officials, *M242/M242M, Standard Specification for Reinforced Concrete D-Load Culvert, Storm Drain, and Sewer Pipe*, Washington, DC.

American Association of State Highway & Transportation Officials (AASHTO)

American Association of State Highway & Transportation Officials, *M245/M245M, Interim Specification for Corrugated Steel Pipe, Polymer Precoated for Sewers and Drains*, Washington, DC.

American Association of State Highway & Transportation Officials (AASHTO)

American Association of State Highway & Transportation Officials, *M246/M246M, Standard specifications for Steel Sheet, Metallic-Coated and Polymer Precoated for Corrugated Steel Pipe*, Washington, DC.

American Association of State Highway & Transportation Officials (AASHTO)

American Association of State Highway & Transportation Officials, *M259/M259M, Standard Specification for Pre-cast Reinforced Concrete Box Sections for Culverts, Storm Drains, and Sewers*, Washington, DC.

American Association of State Highway & Transportation Officials (AASHTO)

American Association of State Highway & Transportation Officials, *M273/M273M, Standard Specification for Pre-cast Reinforced Concrete Box Sections for Culverts, Storm Drains, and Sewers with less than 2 ft (0.6 m) of Cover Subjected to Highway Loadings*, Washington, DC.

American Association of State Highway & Transportation Officials (AASHTO)

American Association of State Highway & Transportation Officials, *M274, Steel Sheet, Aluminum-Coated (Type 2) for Corrugated Steel Pipe*, Washington, DC.

American Association of State Highway & Transportation Officials (AASHTO)

American Association of State Highway & Transportation Officials, *M278/M278M, Standard Specification for Class PS 50 Polyvinyl Chloride (PVC) Pipe*, Washington, DC.

American Association of State Highway & Transportation Officials (AASHTO)

American Association of State Highway & Transportation Officials, *M294, Standard Specification for Corrugated Polyethylene Pipe 12 in. to 36 in. Diameter*, Washington, DC.

American Association of State Highway & Transportation Officials (AASHTO)

American Association of State Highway & Transportation Officials, *M304, Poly (Vinyl Chloride) (PVC) Profile Wall Drain Pipe and Fittings Based on Controlled Inside Diameter*, Washington, DC.

American Association of State Highway & Transportation Officials (AASHTO)

American Association of State Highway & Transportation Officials, *T99, Standard Method of Test for the Moisture-Density Relations of Soils Using a 5.5 lb (2.5 kg) Rammer and a 12 in. (305 mm) Drop*, Washington, DC.

American Concrete Institute

American Concrete Institute, *Building Code Requirements for Reinforced Concrete (ACI 318)*, Detroit, MI.

American Concrete Pipe Association 1992

American Concrete Pipe Association. 1992. *Concrete Pipe Design Manual*, Vienna, VA.

American Iron and Steel Institute 1993

American Iron and Steel Institute. 1993. *Handbook of Steel Drainage and Highway Construction Products*, Washington, DC.

American Iron and Steel Institute 1989

American Iron and Steel Institute. 1989. *Welded Steel Pipe--Steel Plate Engineering Data*, Volume 3, Washington, DC.

American Railway Engineering Association (AREA) 1996

American Railway Engineering Association (AREA). 1996. *AREA Manual*, Washington, DC.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, *A307, Standard Specification for Carbon Steel Bolts and Studs, 60,000 Psi Tensile Strength*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, *A619/A619M, Standard Specification for Steel, Sheet, Carbon, Cold-Rolled, Drawing Quality*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, *A742/A742M, Standard Specification for Steel Sheet, Metallic Coated and Polymer Precoated for Corrugated Steel Pipe*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, *A746, Standard Specification for Ductile Iron Gravity Sewer Pipe*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, *A760/A760M, Standard Specification for Corrugated Steel Pipe, Metallic-Coated for Sewers and Drains*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, *A762/A762M, Standard Specification for Corrugated Steel Pipe, Polymer Precoated for Sewers and Drains*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, A796/A796M *Standard Practice for Structural Design of Corrugated Steel Pipe, Pipe-Arches, and Arches for Storm and Sanitary Sewers and Other Buried Applications*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, A798, *Standard Practice for Installing Factory-Made Corrugated Steel Pipe for Sewers and Other Applications*, Philadelphia, PA.

*

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, A807, *Standard Practice for Installing Corrugated Steel Structural Plate Pipe for Sewers and Other Applications*, Philadelphia, PA.

*

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, A849/A849M, *Standard Specification for Post Applied Coatings, Pavings, and Linings for Corrugated Steel Sewer and Drainage Pipe*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, A885/A885M, *Standard Specification for Steel Sheet, Zinc and Aramid Fiber Composite Coated for Corrugated Steel Sewer, Culvert, and Underdrain Pipe*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, A929/A929M, *Standard Specification for Steel Sheet, Metallic-Coated by the Hot-Dip Process for Corrugated Steel Pipe*, Philadelphia, PA.

*

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, B744/B744M, *Standard Specification for Aluminum Alloy Sheet for Corrugated Aluminum Pipe*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, B745/B745M, *Standard Specification for Corrugated Aluminum Pipe for Sewers and Drains*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, B788, *Standard Practice for Installing Factory-Made Corrugated Aluminum Culverts and Storm Sewer Pipe*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, B789, *Standard Practice for Installing Corrugated Aluminum Structural Plate Pipe for Culverts and Sewers*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, B790, *Standard Practice for Structural Design of Corrugated Aluminum Pipe, Pipe-Arches and Arches for Culverts, Storm Sewers, and Buried Conduits*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, C76/C76M, *Standard Specification for Reinforced Concrete Culvert, Storm Drain, and Sewer Pipe*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, C78/C78M, *Standard Test Method for Flexural Strength of Concrete (Using Simple Beam with triple-Point Loading)*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, C361/C361M, *Standard Specification for Reinforced Concrete Low-Head Pressure Pipe*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, C443/C443M, *Standard Specification for Joints for Circular Concrete Sewer and Culvert Pipe Using Rubber Gaskets*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, C497/C497M, *Standard Test methods for Concrete Pipe, Manhole Sections, or Tile*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, C506/C506M, *Standard Specification for Reinforced Concrete Arch Culvert, Storm Drain, and Sewer Pipe*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, C507/C507M, *Standard Specification for Reinforced Concrete Elliptical Culvert, Storm Drain, and Sewer Pipe*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, C655/C655M, *Standard Specification for Reinforced Concrete D-Load Culvert, Storm Drain, and Sewer Pipe*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, C789/C789M, *Standard Specification for Precast Reinforced Concrete Box Sections for Culverts, Storm Drains, and Sewers*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, C850/C850M, *Standard Specification for Precast Reinforced Concrete Box Sections for Culverts, Storm Drains, and Sewers with less than 2 ft (0.6 m) of Cover subjected to Highway Loadings*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, C857/C857M, *Standard Practice for Minimum Structural Design Loading for Underground Precast Concrete Utility Structures*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, C877/C877M, *Standard Specification for External Sealing Bands for Noncircular Concrete Sewer, Storm Drain, and Culvert Pipe*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, C900, *Standard Test Method for Pullout Strength of Hardened Concrete*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, C924/C924M, *Standard Practice for Testing Concrete Pipe Sewer Lines by Low-Pressure Air Test Method*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, C969/C969M, *Standard Practice for Infiltration and Exfiltration Acceptance Testing of Installed Precast Concrete Pipe Sewer Lines*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, C1103/C1103M, *Standard Practice for Joint Acceptance Testing of Installed Precast Concrete Pipe sewer Lines*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, C1214/C1214M, *Testing Concrete Pipe Sewerlines by Negative Air Pressure*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D698, *Test Method for Laboratory Compaction Characteristics of Soil Using Standard Effort (12,000 ft-lbf/ft³) (600 kN-m/m³)*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D1056, *Standard Specification for Flexible Cellular Materials - Sponge or Expanded Rubber*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D1754, *Standard Test Method for Effect of Heat and Air on Asphaltic Materials*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D1784, *Standard Specification for Rigid Poly(Vinyl) Chloride (PVC) Compounds and Chlorinated Poly(Vinyl Chloride) CPVC Compounds*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D2262, *Standard Test Method for Tearing Strength of Woven Fabrics by the Tongue (Single Rip) Method (Constant Rate of Traverse Tensile Testing Machine)*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D2321, *Standard Practice for Underground Installation of Thermoplastic Pipe for Sewers and Other Gravity-Flow Application*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D2412, *Standard Test Method for Determination of External Loading Characteristics of Plastic Pipe by Parallel-Plate Loading*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D2487-93, *Standard Classification of Soils for Engineering Purposes (Unified Soil Classification System)*, Philadelphia, PA.

*

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D2680, *Standard Specification for Acrylonitrile-Butadiene-Styrene (ABS) and Poly(Vinyl Chloride) (PVC) Composite Sewer Piping*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D3034, *Standard Specification for Type PSM Poly(Vinyl Chloride) (PVC) Sewer Pipe and Fittings*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D3212, *Standard Specification for Joint for Drain and Sewer Plastic Pipes Using Flexible Elastomeric Seals*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D3262, *Standard Specification for 'Fiberglass' (Glass-Fiber-Reinforced Thermosetting Resin) Sewer Pipe*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D3350, *Standard Specification for Polyethylene Plastics Pipe and Fittings Materials*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D3550, *Standard Practice for Ring-Lines Barrel Sampling of Soils*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D3839, *Standard Practice for Underground Installation of 'Fiberglass' (Glass Fiber Reinforced Thermosetting Resin) Pipe*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D3919, *Standard Practice for Measuring Trace Elements in Water by Graphite Furnace Atomic Absorption Spectrophotometry*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D4253, *Standard Test Method for Maximum Index Density and Unit Weight of Soils Using a Vibratory Table*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D4254, *Standard Test Method for Minimum Index Density and Unit Weight of Soils and Calculation of Relative Density*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, D4161, *Standard Specification for 'Fiberglass' (Glass Fiber-Reinforced Thermosetting Resin) Pipe Joints Using Flexible Elastomeric Seals*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, F667, *Large Diameter Corrugated Polyethylene Tubing and Fittings*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, F679, *Standard Specification for Poly(Vinyl Chloride) (PVC) Large-Diameter Plastic Gravity Sewer Pipe and Fittings*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, F714, *Standard Specification for Polyethylene (PE) Plastic Pipe (SDR-PR) Based on Outside Diameter*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, F794, *Standard Specification for Poly(Vinyl Chloride) (PVC) Profile Gravity Sewer Pipe and Fittings Based on Controlled Inside Diameter*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, F894, *Standard Specification for Polyethylene (PE) Large Diameter Profile Wall Sewer and Drain Pipe*, Philadelphia, PA.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials, F949, *Standard Specification for Poly(Vinyl Chloride) (PVC) Corrugate Sewer Pipe with a Smooth Interior and Fittings*, Philadelphia, PA.
